CONTRACTORS COMMENTS

"STAR 10 PAINT STRIPPER WAS IMPRESSIVE TO USE IN SEVERAL WAYS:

- 1) IT PROVIDED AN ABSOLUTELY CLEAN SURFACE FOR REPAINTING
- 2) IT IS ENVIRONMENTALLY SAFE: PROTECTION OF THE LANDSCAPE, SHRUBS AND PLANTS WAS A HIGH PRIORITY OF THE OWNER. WATER NEUTRALIZED THE EFFECTS OF THE CHEMICAL, SO SIMPLY USING A GARDEN HOSE IN SURROUNDING FLORA PREVENTED ANY DAMAGE.
- 3) WORKER FRIENDLY: **OVER 600 MAN HOURS** OF CLOSE CONTACT WITH THE PRODUCT PROVIDED NO INJURIES, NOT EVEN THE FOREARM BURNS THAT ARE COMMONPLACE WITH USING A METHYLENE CHLORIDE PRODUCT.
- 4) THE ABILITY OF THE PRODUCT TO STAY "WET" WITHOUT COVERING IT ALLOWED US TO APPLY THE PRODUCT AND LET IT "COOK" TO ALLOW THE PAINT TO SOFTEN FOR REMOVAL.

THE FIRST USE OF THE PRODUCT REQUIRED SOME LEARNING BECAUSE TEMPERATURE, HUMIDITY AND WIND SPEED CAN AFFECT "COOK TIME." ALSO THE THICKNESS OF FILM TO BE REMOVED AND LEAD CONTENT ARE FACTORS. STAR 10 STRIPPER WILL SOFTEN THE LAYERS OF LEAD PAINT, BUT SCRAPING IS STILL REQUIRED TO REMOVE IT. A SECOND COAT IS SOMETIMES REQUIRED. THIS PROJECT WAS UP TO 40 MILS THICK (15 TO 20 COATS).

THE ARCHITECT SAID HE **HAD NEVER SEEN SUCH A CLEAN JOB OF STRIPPING!**"
